13947 9000 Data Transmission Media				
Note: The majority of large, medium and small EMCS systems will utilize phone line. Details below are for other methods of communications. 1) A duplexer can be used in lieu of two antennas. A duplexer is used only on two-way systems. 2) Price is for broadband YagiW9.5Db Used when field located 15-20 miles from central control. 3) Prices for 2.5 Db whip				

MNOR CSI	DESCRIPTION	UOM	TOTAL DIRECT UNIT	DEMOLITION UNIT COST
antennas used when field is within 2 to 5 mile from central control. 4) Price is for 25 watt transceiver at field two-way system only. 5) Used in simplex systems (one-way) to control equipment as commanded by central control. 6) Receiver with audio output. 7) Two modems are required for two-way communication between central control and field. 8) Distance between repeaters generally 3300 feet. 9) Applicable only when fiber optic equipment is integral part of field/Imux. 10) 200 micrometer, LED Powered For cable runs to 1 mile.

MNOR CSI	DESCRIPTION	UOM	TOTAL DIRECT UNIT	DEMOLITION UNIT COST
15100 Pipe & Fittings				
JOC Note: Testing, Startup, and Checkout line items are used for existing systems where necessary. New systems includes all necessary testing, startup, and checkout. Demlition Costs For Pipe Include The Removal Of All Associated Fittings, Valves, And Insulation. For Individual Fittings, Valves, And Insulation Removal Use The Appropriate Demolition Line Items. Electrical Termination Costs Are Included In The Line Items.				
15101 Miscellaneous Fittings				
15103 0010 Backflow preventer, corrosion res, auto opn				
15103 1000 Double check principle				
Note: Includes Valves and four test cocks, corrosion resistant, automatic operation Double check principle.

15200 Plumbing Fixtures

Note: The Following Energy Policy Act Flow Rates Requirements Superseed Flow Rates Standards In CSI 15401 JOC Specifications For The Following Items. Plumbing Fixtures And Trim Should Not Exceed The Maximum Flow rates Set Forth In The Energy Policy Act 92. Lavatory Faucets - 2.5Gal/MIn, Lavatory Replacement Aerators - 2.5Gal/MIn, Kitchen Faucets - 2.5Gal/MIn, Kitchen Replacement Aerators - 2.5Gal/MIn, Metering Faucets - 0.25Gal/Cycle, Gravity Tank-Type Toilets - 1.6 Gal/Flush, Flusometer Tank Toilets - 1.6Gal/Flush, Electromechanical Hyraulic Toilets - 1.6Gal/Flush, Blowdown Toilets - 3.5Gal/Flush, Urinals - 1.0Gal/Flush. Demolition of Fixtures Includes All Associated Faucets, Valve, Supply Lines, Traps, And Pop-up Drains.

15201 Fixtures

Note: Demolition Of Fixtures Includes All Associated Faucets, Valves, Supply Lines, Traps, And Pop-up Drains. Prices Are For Commercial Grade And Include No Rough-In Within The Wall. Prices Include Final Connection And All Associated Trim Unless Title States Otherwise.

15204 0010 Baths

15204 0100 Tubs

15204 0219 Recessed porcelain enamel on cast iron

0220	Baths, tubs, 72" x 36", recessed porcelain enamel on CI, w/trim	EA	1,546.66	56.73
0750	Baths, tubs, porcelain enamel on CI, for color, add		339.36

15289 1310 Open Throat Pump - Two Stage				
Note: These Pumps Are Designed For Pumping High Viscosity, High Solids Content Materials With Virtually No Flow Characteristics. The Pumps Are Constructed With Cast Iron Housings, Tool Steel Internals, Buna-N Stator And Kevlar Packing. The Pumps Are Mounted On A Baseplate With A Gear Motor Coupled To The Pump.				
1311	Open Throat Sludge Pump, .47" Max. Particle Size, 2 HP, Size	EA	6,374.56	
1312	Open Throat Sludge Pump, .47" Max. Particle Size, 3 HP, Size	EA	6,843.02	
1313	Open Throat Sludge Pump, .47" Max. Particle Size, 5 HP, Size	EA	7,077.26	
1314	Open Throat Sludge Pump, 1.4" Max. Particle Size, 15 HP, Size	EA	20,507.92	
1315	Open Throat Sludge Pump, 1.4" Max. Particle Size, 25 HP, Size	EA	22,850.24	
1316	Open Throat Sludge Pump, 1.4" Max. Particle Size, 30 HP, Size	EA	24,489.87	
1317	Open Throat Sludge Pump, 1.7" Max. Particle Size, 30 HP, Size	EA	40,695.93	
1318	Open Throat Sludge Pump, 1.7" Max. Particle Size, 40 HP, Size	EA	43,975.18	
1319	Open Throat Sludge Pump, 1.7" Max. Particle Size, 50 HP, Size	EA	44,912.10	
1321	Open Throat Sludge Pump, 1.7" Max. Particle Size, 60 HP, Size	EA	51,119.26	
1322	Open Throat Sludge Pump, 2" Max. Particle Size, 50 HP, Size 150	EA	71,787.34	
1323	Open Throat Sludge Pump, 2" Max. Particle Size, 60 HP, Size 120	EA	78,697.19	
1324	Open Throat Sludge Pump, 2" Max. Particle Size, 75 HP, Size 150	EA	81,271.34	
1325	Open Throat Sludge Pump, 2" Max. Particle Size, 100 HP, Size 150	EA	93,100.06	
15289 1330 Bridge Breaker - Single Stage				
Note: These Pumps Are Designed For Pumping High Viscosity, High Solids Content Materials With Virtually No Flow Characteristics That Tend To Bridge. The Pumps Are Constructed With Cast Iron Housings, Tool Steel Internals, Buna-N Stator And Kevlar Packing. The Pumps Are Mounted On A Baseplate With A Gear Motor Coupled To The Pump.				
1331	Bridge Breaker, .70" Max. Particle Size, 1.5 HP, Size 50	EA	9,938.25	
1332	Bridge Breaker, .70" Max. Particle Size, 2 HP, Size 50	EA	10,406.72	

MNOR CSI	DESCRIPTION	UOM	TOTAL DIRECT UNIT	DEMOLITION UNIT COST

15700 Air Conditioning & Ventilation

15701 Air Conditioning & Ventilation Units

15708 0010 Air handling unit, built up Mtor And Cabinet.

Note: Sized by Cfm Includes Mtor Drive Vibration Isolators. See Modifiers For Filters And Heating And Cooling Coils. For Preheat Coils See CSI 15723. Includes Insulated Casing, Fan Section, Fan Mtor, Starter, Vibration Isolators. Variable Speed Drives are Included On Units With 10 HP And Larger Fans. Modifiers Include Cooling Coil Sections With 6 Row Aluminum Fin Coil And Drain Pan, Heating Coil Section With 1 Row Aluminum Fin Coil And Filter Section With Replaceable Filters.

15708 0880 Single zone, horizontal or vertical

0136	Water chiller, w/std cntrl, air cool, 270 ton, cntfgl liquid	EA	132,580.28	922.62
0140	Water chiller, w/std cntrl, air cool, 320 ton, cntfgl liquid	EA	156,598.35	1,020.70

15720 0200 Packaged unit, tower not included

Note: Includes H-Xs, Controls, 460 V Mtor, And All Accessories (Water Temperature Controller With PE Switches, Flow Switch, Etc.) And Also Includes Start-Up. Price Includes Closed Transition Starter. (Rated By Cooling Capacity In Tons). Units Are Factory Assembled package Type Consisting Of Compressor, Mtor, Cooler, Condenser, Internal Piping And Wiring, Mtor Starters, Insulation, Purge Unit, Controls, Gauges, Lubrication System Refrigerant Charge, Oil And Start-Up. Costs Do Not Include Piping Or Power Wiring.

15720 1450	Water cooled, dual compressors			
1640	Water ch, recip, 225 ton cool, wtr cld, dual cprsr, direct dr,	EA	132,607.96	3,554.47
1660	Water ch, recip, 250 ton cool, wtr cld, dual cprsr, direct dr,	EA	145,348.15	4,478.55
15720 7000	Packaged Water-Cooled Screw Chiller			
	Note: Unit Is Factory Assembled And Includes Unit Mounted Combination Starter, Microprocessor Controls w/Control Trasformer, Control Interface Module, Bearing Temperature Sensors, Under/Over Voltage Protection, Insulation, Refrigerant Charge, Vibration Isolators, And Start-Up. Evaporator Tubes Are 0.028" Internally Enhanced Copper. Condensor Tubes 0.028" Smooth Bore Copper. Includes Crane To Unload And Set Unit In Place. Minimum Efficiency Shall Be 0.70 kW/Ton, Except 70 Ton Model Shall Be 0.78kW/Ton And 100 Ton Model Shall Be 0.77 kW/Ton. Efficiencies Are Based On 45/55 Deg. F CHWS/CHWR And 85/95 Deg. F CWS/CWR. Maximum Pressure Drop Thru The Condensor Or Evaporator Shall Not Exceed 20Ft H2O.			
7001	70 Ton, Screw Chiller, Trane Model RTWA Or Approved Equal	EA	33,248.41	700.51
7002	100 Ton, Screw Chiller, Trane Model RTWA Or Approved Equal	EA	38,284.64	840.68

15726 6200 Compressed Air Drop Station				
6210	1/2" Air Drop Station, Incl Ball Valve, Fil, Reg, Quick Connect	EA	258.77	
15727 0010 Compressor accessories				
15727 1700 Refrigerated air dryers w/ambient air filters				
1710	Compressor accessories, 10 CFM refrd air dryer w/ambient air	EA	678.74	15.79
1720	Compressor accessories, 25 CFM refrd air dryer w/ambient air	EA	1,127.28	20.15

MNOR CSI	DESCRIPTION	UOM	TOTAL DIRECT UNIT	DEMOLITION UNIT COST
1730	Compressor accessories, 50 CFM refrd air dryer w/ambient air	EA	1,970.37	42.58
1740	Compressor accessories, 75 CFM refrd air dryer w/ambient air	EA	2,452.05	40.66
1750	Compressor accessories, 100 CFM refrd air dryer w/ambient air	EA	2,619.65	46.66
15727 4000	Couplers			
4160	Compressor accessories, 1/2", air line coupler, male & female	EA	39.24	10.89
4170	Compressor accessories, 3/4", air line coupler, male & female	EA	45.00	13.50
15727 4300	Oil and water filter for air compressor			
Note: Aluminum Housing With Pressure Rating Of 250 Psig At 70 F. 1/2 In Npt Inlet And Outlet. Includes Manual Drain Valve And Box Of Ten Filters				
4320	Compressor accessories, rated 250PSIG, 1/2"NP, oil/water	EA	327.20	2.57
15728 0010	Condensers			
15728 0080	Air cooled, belt drive, propeller fan			
Note: Units Include A Compressor, Condenser, Fan, Mtors, Discharge/Suction Gauges, Sight Glass, Fan Cycling Controls, Standard Oil HI/Low Safety Control Switches. Costs Do Not Include Piping Or Valves.				
0240	Condensers, 30F TD rate, prop fan, 50 ton, R-22, air cool,	EA	11,845.83	573.31
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		501.64	
0400	Condensers, 30F TD rate, prop fan, 101 ton, R-22, air cool,	EA	23,569.31	887.81
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		981.67	
0500	Condensers, 30F TD rate, prop fan, 159 ton, R-22, air cool,	EA	35,181.24	1,463.79
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		1,463.86	
0600	Condensers, 30F TD rate, prop fan, 228 ton, R-22, air cool,	EA	52,163.86	2,094.81
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		2,116.19	
0650	Condensers, 30F TD rate, prop fan, 250 ton, R-22, air cool,	EA	61,061.26	1,902.71
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		2,518.28	
0700	Condensers, 30F TD rate, prop fan, 314 ton, R-22, air cool,	EA	76,952.70	2,685.84
1510	Condensers, 30F TD rate, prop fan, belt dr, for liquid receiver, add		3,194.54	
15728 1550	Air cooled, direct drive, propeller fan			
Note: Incl. Coml & Std Controls.				
1620	Condensers, 30F TD rate, prop fan, 2 ton, R-22, air cool,	EA	850.83	51.98
1990	Condenser, 30F TD rate, prop fan, direct dr, for liquid receiver, add		33.67	
1622	3 Ton Air Cooled Condenser Belt/ Direct Driven Prop, Vert Cu Coil	EA	1,243.84	87.79
1990	Condenser, 30F TD rate, prop fan, direct dr, for liquid receiver, add		53.72	
1624	4 Ton Air Cooled Condenser Belt/ Direct Driven Prop, Vert Cu Coil	EA	1,528.06	104.46
1990	Condenser, 30F TD rate, prop fan, direct dr, for liquid receiver, add		66.31

15731 0020 Fabricated rectangular				
15731 0099 Aluminum				
0100	Duct, fab rect, under 1000 LB, incl ftg, al, alloy 3003-h14	LB	15.32	5.11
0160	Duct, fab rect, over 1000 LB, incl ftngs, al, alloy 3003-h14	LB	7.63	1.81
15731 0499 Galvanized steel				
0500	Duct, fab rect, under 1000 lb, incl ftg, jt, sprt, galv stl	LB	6.45	1.60
0560	Duct, fab rect, Over 1000 LB, incl ftg, galv stl	LB	3.78	0.96
0581	Duct, fab rect, incl ftg, galv, mdm pressure	LB	4.00	0.89
0582	Duct, fab rect, incl ftg, galv, high pressure	LB	5.46	1.35
15731 0999 Stainless steel, type 304				
1000	Duct, fab rect, under 1000 LB, incl ftg, sst, type 304	LB	9.59	2.38
1060	Duct, fab rect, over 1000 LB, incl ftngs, sst, type 304	LB	5.68	1.07
15731 1070 Stainless steel				
1074	Duct, sst material, 16 ga	SF	22.08	3.58
1075	Duct, sst material, 14 ga	SF	24.98	4.33
1076	Duct, sst material, 12 ga	SF	30.66	5.22
1078	Duct, sst material, 10 ga	SF	36.38	6.07
15731 1300 Flexible, duct coated fiberglass fabric				
15731 1899 Insulated, 1" thick with 3/4 lb, PE jacket				
1900	Duct, flex, polthn jkt, 3" dia, ctd fbgl fabric, insul, 1"thk,	LF	2.97	0.38
1910	Duct, flex, polthn jkt, 4" dia, ctd fbgl fabric, insul, 1"thk,	LF	3.15	0.38
1920	Duct, flex, polthn jkt, 5" dia, ctd fbgl fabric, insul, 1"thk,	LF	3.62	0.76
1940	Duct, flex, polthn jkt, 6" dia, ctd fbgl fabric, insul, 1"thk,	LF	4.09	0.76
1960	Duct, flex, polthn jkt, 7" dia, ctd fbgl fabric, insul, 1"thk,	LF	4.90	0.79
